

**April Hart
Senior Project Coordinator
H&R Construction Management Limited**

To Whom It May Concern,

I decided to take the Construction Learning Skills Courses back in 2001 graduating with honours, and have had continued success in my career. I landed a position in the construction industry immediately after graduation, and am currently a Senior Project Coordinators at a company with billings in excess of 50 million dollars annually.

I made the decision to change careers after I had spent many years as a bookkeeper working out of my residence. Being a single mother, I am now able to lead a very pleasant and enjoyable life with my 15-year old daughter in new home I just purchased thanks to the success I am enjoying in my new career.

Thanks go out to Mr. 'Bud' Hawkins for making these courses available through Sheridan College, in Oakville, Ontario. These courses have given me the advantage of a wide range of career opportunities within the industry, and my life has changed because of them.

I shall be forever grateful to Mr. Bud Hawkins for giving me the tools and the skills I needed to become successful in my career.

I recommend that anyone who is interested in the Construction industry and has the opportunity to take these Construction Learning Skills courses to do so as soon as possible to get their career jump started just as I did. Taking these courses is the first step to becoming successful in the Construction Industry.

Thank you for all the career opportunities these specially designed courses have afforded my family and me.

Sincerely yours,

April Hart
Senior Project Coordinator
